

# A 21st century energy company in Louisiana

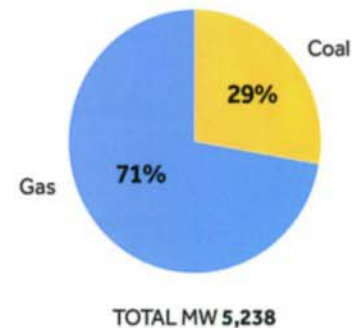

## OUR LOCATIONS

## COOPERATIVES WE SERVE

## MW BY FUEL TYPE

## WHO WE SERVE:

Electric cooperatives (generation, transmission & distribution) ✦ Municipal utilities ✦ Investor-owned utilities  
Public power agencies ✦ Wholesale aggregators ✦ Power marketers

NRG Energy, through its wholly owned subsidiary Louisiana Generating, serves the needs of nine Louisiana electric cooperatives. Between the cooperatives and other municipal customers, NRG serves a peak demand of more than 2,400 MW. The total generation portfolio exceeds 5,200 MW and includes a diverse mix of baseload, intermediate, peaking natural gas and coal-fired generation in Louisiana, Mississippi, East Texas and Illinois.

Louisiana Generating is one of the lowest cost providers of products and services along the Gulf Coast, offering a full suite of wholesale electricity and fuel management solutions, including:

- ✦ Full requirements services
- ✦ Tolling agreements
- ✦ Long-term power purchase agreements
- ✦ Fixed and index price energy
- ✦ Energy management services
- ✦ Fuel management services

The depth and breadth of experience our team provides in accounting, trading, marketing, risk management, compliance, regulatory and legal, engineering and IT is the perfect complement to the products and services we offer:

- ✦ 24-hour marketing and trading desk (marketing and trade execution)
- ✦ 24-hour dispatch and transmission desk (reliability and compliance)
- ✦ Power trading desk dedicated to the Gulf Coast region (MISO, Entergy, Southern Co and FRCC)
- ✦ Origination team focused on mid-to long-term wholesale opportunities
- ✦ Fuels trading and scheduling (coal, natural gas and fuel oil)

The power to change life.  
The energy to make it happen®
